- i) 2 marks for highlighting three main constraints in project management
 - ii) 1 marks for defining project management & 2 marks for key phases
 - iii) 3 marks importance of risk management & 2 marks for example.
 - iv) 3 marks for role of project manager & 2 marks for explaining how project manager contributes in success of a project.

- Q3
- i) 2 marks for explaining the effectiveness of critical path method in project management.
 - ii) 2 marks for defining network analysis, 6 marks for highlighting the significance of identifying project dependencies.
 - iii) 1 marks for defining network analysis, 7 marks on explaining & highlighting key points managing project delays through identification of critical path, visualization of dependencies, resource optimization & allocation, crash scheduling.

- Q4
- i) 3 marks minimum 2 points (1 mark for each point).
 - ii) 3 marks for defining project culture & its importance, 4 marks for impact of project culture on team performance.
 - iii) 5 marks for defining organizational structure & its influence on project success. 2 marks for explaining with some examples.

Q 5 i) 1 marks for defining project duration, 3 marks for importance of monitoring project duration in ensuring timely delivery & ~~met~~ meeting project objectives.

ii) 2 marks for mentioning the common strategies, 4 marks for explaining each.

iii) 2 marks for explaining resource leveling, 4 marks for highlighting how resource leveling help in controlling project duration.

Q 6 i) 1 mark for defining strategic planning, 4 marks for restate importance of project manager in strategic planning.

ii) 2 marks for explaining project appraisal, 3 marks for highlighting importance

iii) 1 marks for defining strategic planning, 4 marks for highlighting how it helps in project management.
