## Faculty of Engineering

End Sem (Odd) Examination Dec-2019

CE3EC06 Construction Quality Control & Management Branch/Specialisation: CE Programme: B.Tech.

**Duration: 3 Hrs. Maximum Marks: 60** 

|     | -    | estions are compulsory. Intern<br>should be written in full instea | ial choices, if any, are indicated. Answer<br>ad of only a. b. c or d. | s of |
|-----|------|--|--|------|
| Q.1 | i.   | The process mapping is a   | ·  | 1    |
|     |      | (a) Data flow  | (b) Work flow  |      |
|     |      | (c) Cash flow  | (d) Audit  |      |
|     | ii.  | Which one is not the basic fe                                      | eature of TQM?   | 1    |
|     |      | (a) Management commitment  | ut   |      |
|     |      | (b) Focus on customer (both  | external and internal),  |      |
|     |      | (c) Exclusion of Employee in                                       | nvolvement, form quality aspect  |      |
|     |      | (d) Continuous improvement   | ţ  |      |
|     | iii. | What is defined as a set of  | of development and quality assurance                                   | 1    |
|     |      | efforts performed to achieve                                       | e a common goal, based on the release                                  |      |
|     |      | timeline?  |  |      |
|     |      | (a) Test Set   | (b) Requirement  |      |
|     |      | (c) Test Plan  | (d) Cycle  |      |
|     | iv.  | The concepts of quality  | planning, quality control, quality                                     | 1    |
|     |      | improvement known as 'T  | rilogy of quality' was introduced by                                   |      |
|     |      |  |  |      |
|     |      | (a) Philip (b) Crosby  | (c) Dr. Juran (d) Edward Deming  |      |
|     | v.   | ty problems are  | 1  |      |
|     |      | (a) Due to management  | • •  |      |
|     |      | (c) Due to machine   | (d) Due to material  |      |
|     | vi.  |  | sponsible for quality objective?                                       | 1    |
|     |      | <del>_</del>   | (b) Middle level management  |      |
|     |      | (c) Frontline management   |  |      |
|     |      | · / · · · · · · · · · · · · · · · · · ·                            | (a)  | _    |

|   | vii.  | Control chart is a  | 1 |  |  |
|---|-------|---|---|--|--|
|   |       | (a) Process monitoring tool (b) Process control tool                    |   |  |  |
|   |       | (c) Both (a) and (b) (d) None of these                                  |   |  |  |
|   | viii. | Quality control helps to the risks of overdesign that                   | 1 |  |  |
|   |       | the overall cost.   |   |  |  |
|   |       | (a) Maximize, Increase (b) Minimize, Increase                           |   |  |  |
|   |       | (c) Maximize, Decrease (d) Minimize, Decrease                           |   |  |  |
|   | ix.   | High cost, low volume items requires                                    | 1 |  |  |
|   |       | (a) No inspection (b) Little inspection                                 |   |  |  |
|   |       | (c) Intensive inspection (d) 100% inspection                            |   |  |  |
|   | х.    | As per the CPWD guide lines material should be tasted at laboratory of. |   |  |  |
|   |       | (a) Contractor (b) CPWD Headquarter                                     |   |  |  |
|   |       | (c) Third party laboratories (d) None of these                          |   |  |  |
|   |       |   |   |  |  |
| Q.2   | i.    | Explain Quality control.  | 4 |  |  |
|   | ii.   | What is meant by quality management system and what are the             | 6 |  |  |
| methods of quality management system?                             |       |   |   |  |  |
| OR iii. Discuss the importance of monitoring and control phase of |       |   | 6 |  |  |
|   |       | execution of a construction project.                                    |   |  |  |
| Q.3   |       | Attempt any two:  |   |  |  |
| i. Explain Drawing and Quality Audit.                             |       | Explain Drawing and Quality Audit.                                      | 5 |  |  |
|   |       | Explain Quality System approach in building design & construction.      | 5 |  |  |
|   | iii.  | Explain Quality system in Architectural Design.                         | 5 |  |  |
| Q.4   |       | Attempt any two:  |   |  |  |
|   | i.    | Explain the aspects of Quality audit in construction works as per       | 5 |  |  |
|   |       | ISO: 9000   |   |  |  |
|   | ii.   | What are some major obstacles to TQM implementation? 5                  |   |  |  |
|   | iii.  | Define total quality control. What are the statistical methods for      | 5 |  |  |
|   |       | quality control?  |   |  |  |
| 0.5   | ;     | What are the requirements of TOM existen in building                    | 1 |  |  |
| Q.5   | i.    | What are the requirements of TQM system in building maintenance?        | 4 |  |  |

[3]

|     | ii.       | Explain benefits and item-wise checklist for quality control.  | 6          |
|-----|-----------|--|------------|
| OR  | iii.      | Explain quality checking as per CPWD specification.  | 6          |
| Q.6 | i.<br>ii. | What are the objectives of quality assurance?<br>Explain quality control of service line water supply and drainage system. | <b>4 6</b> |
| OR  | iii.      | Explain how you will improve quality through mechanization?  | 6          |

## **Marking Scheme**

## **CE3EC06 Construction Quality Control & Management**

| Q.1 | i.  | The process mapping is a diagram.  (b) Work flow  | 1      |  |
|-----|---|---|--------|--|
|     | ii.   | Which one is not the basic feature of TQM?  | 1      |  |
|     |   | (c) Exclusion of Employee involvement, form quality aspect  |        |  |
|     | iii.  | What is defined as a set of development and quality assura efforts performed to achieve a common goal, based on the reletimeline? |        |  |
|     |   | (d) Cycle   |        |  |
|     | iv.   | The concepts of quality planning, quality control, qua improvement known as 'Trilogy of quality' was introduced                   | •      |  |
|     |   | (c) Dr. Juran   |        |  |
|     | v.  | According to Deming, Quality problems are   | 1      |  |
|     |   | (a) Due to management   | _      |  |
|     | vi.   | Which of the following is responsible for quality objective?  | 1      |  |
|     | vii.  | (d) All of these<br>Control chart is a  | 1      |  |
|     | V 11.   | (c) Both (a) and (b)  | -      |  |
|     | viii.   | Quality control helps to the risks of overdesign t  | that 1 |  |
|     |   | the overall cost.   |        |  |
|     |   | (d) Minimize, Decrease  |        |  |
|     | ix.   | High cost, low volume items requires  | 1      |  |
|     |   | (c) Intensive inspection  |        |  |
|     | x. As per the CPWD guide lines material should be tasted at labor |   |        |  |
|     |   | of.   |        |  |
|     |   | (c) Third party laboratories  |        |  |
| Q.2 | i.  | Quality control.  | 4      |  |
|     |   | Definition 1 mark   |        |  |
|     |   | Explanation 3 marks   |        |  |
|     | ii.   | Quality management system 2 marks   | 6      |  |
|     |   | Methods of quality management system  |        |  |
|     |   | 2 marks for each method (2 marks * 2) 4 marks   |        |  |
| OR  | iii.  | Importance of monitoring 3 marks  | 6      |  |
|     |   | Importance of control phase 3 marks   |        |  |
|     |   |   |        |  |

| Q.3 |      | Attempt any two:  |                |   |
|-----|------|---|----------------|---|
|     | i.   | Correct explanation of Drawing and Quality Audit.               |                |   |
|     | ii.  | Quality System approach in building design & con                | struction.     | 5 |
|     |      | Stepwise marking  |                |   |
|     | iii. | Quality system in Architectural Design.                         |                | 5 |
|     |      | 2.5 marks for each  | (2.5 marks *2) |   |
| Q.4 |      | Attempt any two:  |                |   |
|     | i.   | Aspects of Quality audit in construction works as per ISO: 9000 |                |   |
|     |      | 2.5 marks for each aspect                                       | (2.5 marks *2) |   |
|     | ii.  | Obstacles to TQM implementation                                 |                | 5 |
|     |      | 1 mark for each obstacle  | (1 mark * 5)   |   |
|     | iii. | Definition total quality control                                | 1 mark         | 5 |
|     |      | Statistical methods for quality control                         |                |   |
|     |      | 2 marks for each method (2 marks * 2)                           | 4 marks        |   |
| Q.5 | i.   | Requirements of TQM system in building maintenance 4            |                |   |
|     |      | 1 mark for each requirement                                     | (1 mark *4)    |   |
|     | ii.  | Benefits for quality control                                    |                | 6 |
|     |      | 1 mark for each (1 mark * 3)                                    | 3 marks        |   |
|     |      | Item-wise checklist for quality control                         | 3 marks        |   |
| OR  | iii. | Quality checking as per CPWD specification                      |                | 6 |
|     |      | 1 mark for each specification                                   | (1 mark * 6)   |   |
| Q.6 | i.   | Objectives of quality assurance                                 |                | 4 |
|     |      | 1 mark for each objective                                       | (1 mark * 4)   |   |
|     | ii.  | Quality control of service line water supply                    | 3 marks        | 6 |
|     |      | Quality control of drainage system                              | 3 marks        |   |
| OR  | iii. | Improve quality through mechanization                           |                | 6 |
|     |      | 1 mark for each reason for improvement                          | (1 mark * 6)   |   |
|     |      |   |                |   |
